# SLEEP SCIENCE

## THERE IS A SCIENCE BEHIND SLEEP TIME TEMPERATURE

Cooler temperatures can help us fall asleep faster. However, as the night progresses, the temperature should rise to ensure comfort and peaceful sleep. This adjustment helps our bodies adapt to the outdoor weather. On the other hand, warmer temperatures during morning can gently wake you up.

# ENERLYF SYNC YOUR AC AND CEILING FAN TO PROVIDE YOU WITH THE BEST COMFORT WHILE ALSO ENSURING UP TO 35% ENERGY EFFICIENCY

## COMPACT DESIGN

Our palm-sized design ensures functionality without taking up much space, perfect for any living space.

## DISPLAYS SAVING

Users can track and monitor their energy savings in real-time through an on-device display.

## ONE-TOUCH OPERATION

Experience the convenience; easily adjusting your AC and ceiling fan with just a single touch.

## USER-FRIENDLY FOR ALL

Our product is incredibly user-friendly, easy for both kids and grandparents to operate.

## NO WIFI REQUIRED

Make your AC and ceiling fan smart without WiFi. Compatible with all remote-controlled ACs.

## INNOVATING INCLUSIVITY

Our goal is to ensure that our product is easily accessible to all, including those who have difficulties with their vision.

# REAL-LIFE EXPERIENCES FROM USERS

## **Sustainability and Undisturbed sleep**

Thanks to Enerlyf, I now sleep soundly and feel good knowing I'm contributing to a sustainable future.

**Aarohi - Actor**

## **My child is sleeping peacefully now**

No complicated setup, just one-touch AC control for energy-saving and better sleep, especially for my baby.

**Amit Tiwari**

## **Wake up feeling refreshed in the morning**

Enerlyf has transformed my mornings! I no longer have to get out of bed to adjust the temperature, which leaves me feeling refreshed and ready to give my best as a radio jockey.

**Dhvanit - Former Radio Jockey ( Radio Mirchi 98.3 FM )**

## **Great savings with added health benefits**

After investing in Enerlyf, our AC temperature issues and leg cramps were resolved. Now we sleep soundly from 10 PM to 5 AM and save 25% on our bill.

**Dr. Damyanti & Dr. Virendra Modi**

# OUR IMPACT

## LUXURY MEETS SUSTAINABILITY

Each day your Enerlyf usage  
lights up 2.5 rural homes for better future

### ↗ How can we achieve it?

Every night, we waste 4-5 units of electricity on air conditioning, while millions in rural areas struggle with just 1-2 units for essentials. By using energy wisely, we could light up 2.5 homes daily, positively impacting 10-12 lives everyday.
